Kascada™

Powered by SCIENTIFIC GAMES

Kascada™

BUILT ON A LEGACY OF REVOLUTIONARY PORTRAIT CABINETS

The **Kascada**™ continues a legacy of portrait cabinet innovation that began with the revolutionary **ALPHA Pro Wave**®, the first curved-screen portrait cabinet that sent shockwaves through the industry, changed the look of casino floors and transformed the player experience forever.

KASCADA

THE NEXT GENERATION

Kascada incorporates many of the revolutionary features found in its portrait cabinet heritage, as well as new, cutting-edge advancements.

Players are going to love the Kascada for its innovative double-curve, ultra-high-definition display, enhanced iDeck™, enveloping soundbar, and alluring lighting effects that create an immersive gaming experience.

Operators are going to love the Kascada's dazzling presence on their casino floor, which draws players in and keeps them engaged with the game. They are also going to appreciate the superior ease of access due to the incorporation of the TwinStar J43's industry-first main door hinging system, as well as an internal reconfiguration that makes servicing and software changes easier than ever.

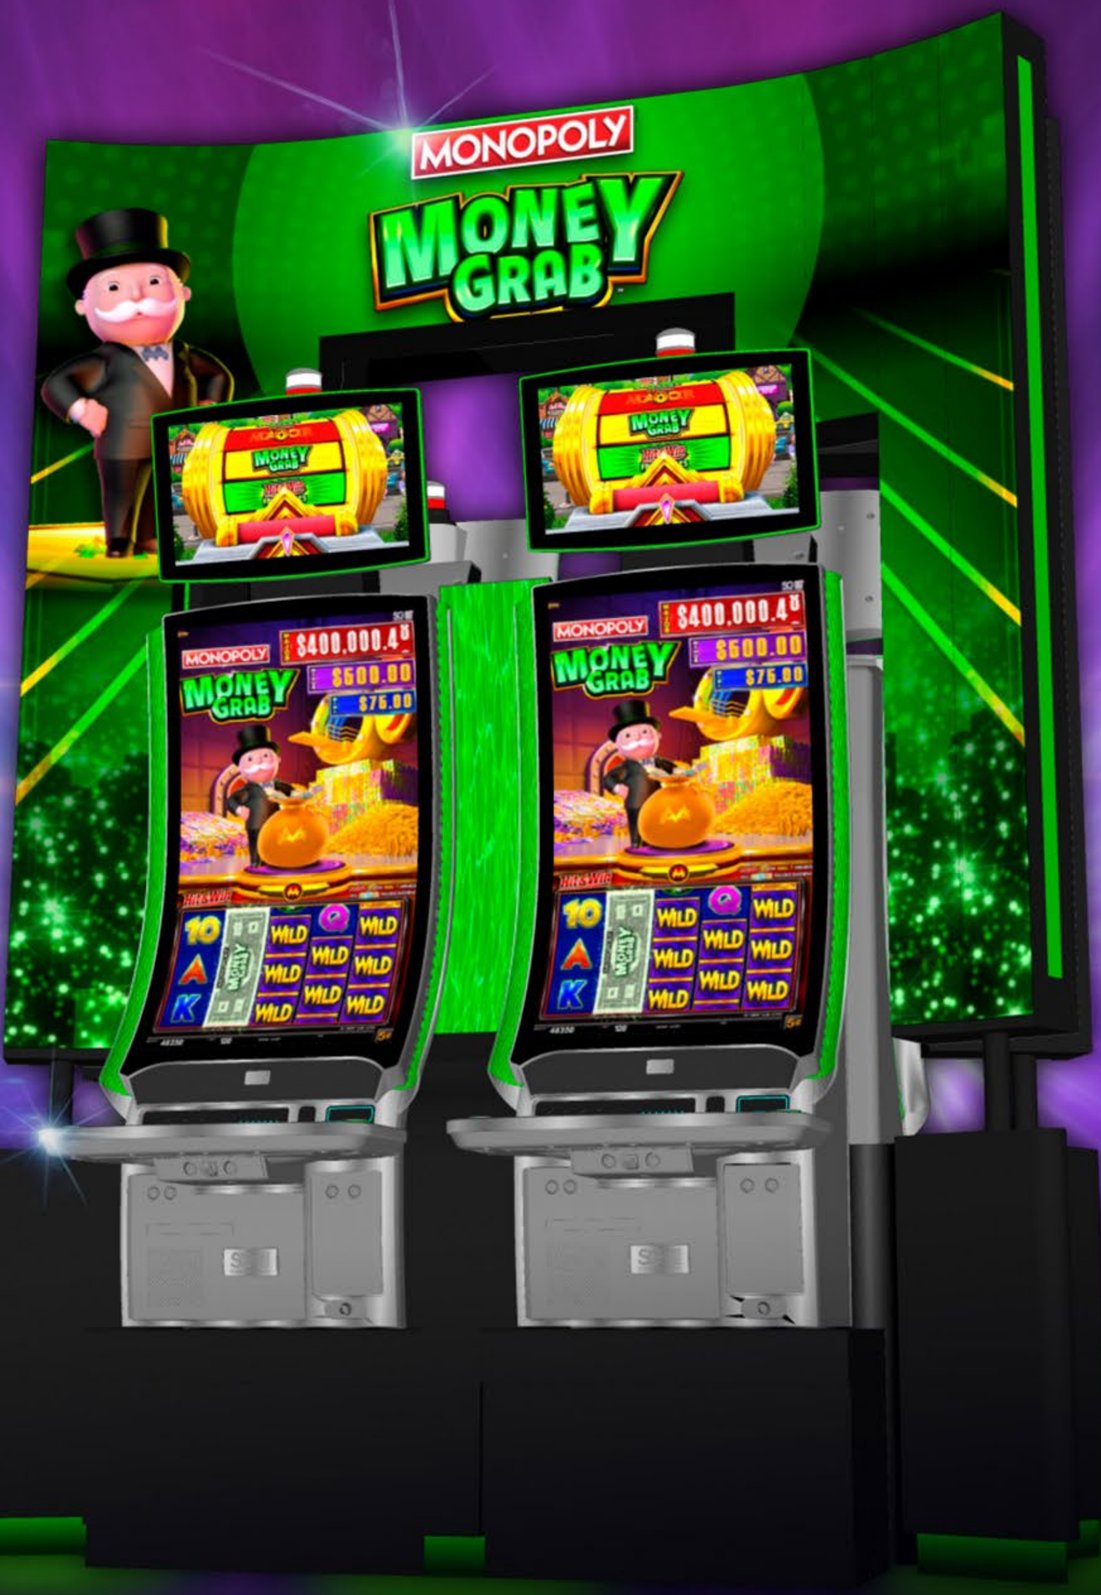

KASCADA

HIGHLIGHTS

- Unique 43" double-curved, 4K resolution display that draws the player into the game.
- Upgraded floating iDeck™ featuring a new ergonomic shape, top glass, and dual bash buttons for increased player interaction.
- Innovative new lighting package that includes front-facing perimeter lights, as well as side-firing LEDs that light up a proprietary reflector design. The result is a dazzling package that gives the Kascada a larger looking presence and creates player-attract effects that cannot be achieved by traditional pinstripe lighting and not offered by any other EGM on the market.
- Next-generation Salem™ processor provides lightning-fast gameplay, smooth animation, and crystal-clear graphics.
- Multi-channel custom soundbar that is integrated into the display envelopes the player in the game's audio effects
- Superior ease of access due to the incorporation of the J43's industry-first main door hinging system, and further enhanced by an internal reconfiguration that puts all of the main components in plain sight, allowing for easy servicing and software changes.
- Better mobility due to the Kascada being one the lightest cabinets SG has designed, with the 43" display assembly weighing less than half the weight of the J43's.
- Available with cutting-edge sign package options featuring upgraded layered lighting for a stand-out look.

The Kascada will launch with games based on some of Scientific Games' most celebrated brands, including **Coin Combo**™, a progression of **Duo Fu Duo Cai**®, and **MONOPOLY Money Grab**.

The robust Kascada content pipeline includes games that advance some of SG's most successful proprietary brands, new titles featuring innovative game mechanics, as well as games based on some of the world's most recognized entertainment brands.

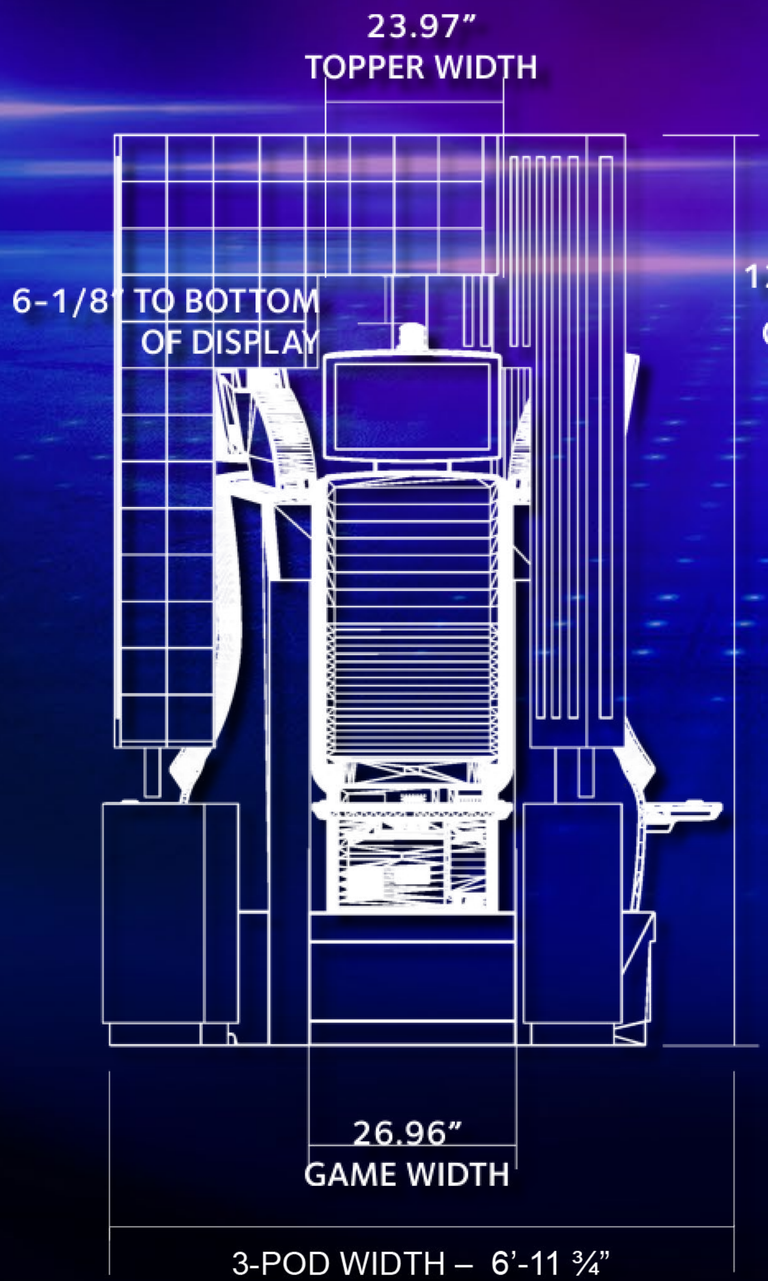

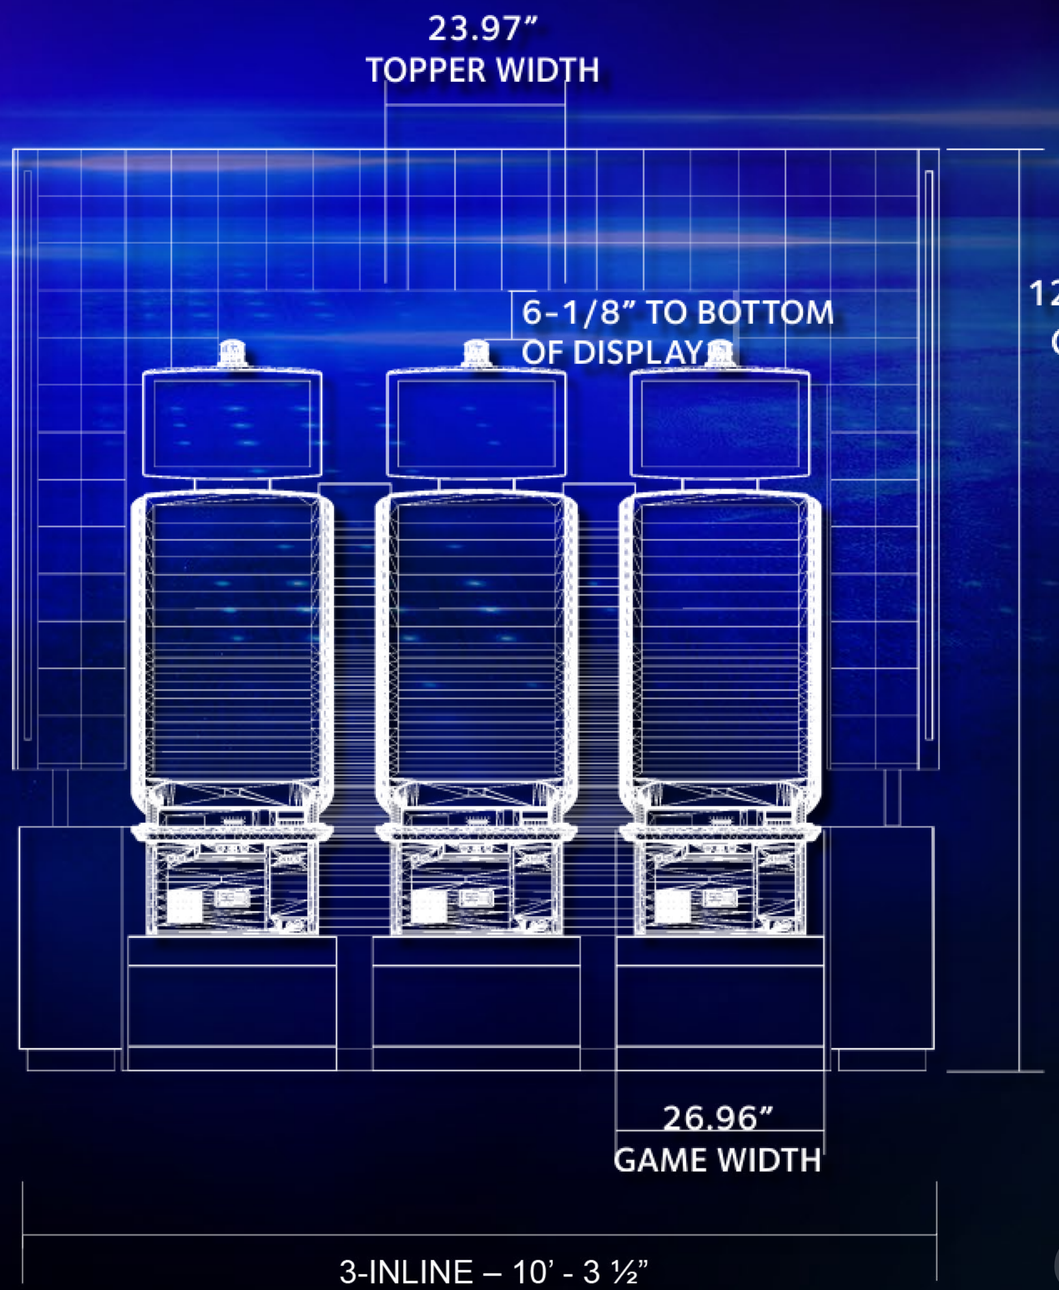

BEAUTIFUL MERCHANDISING

The Kascada is available with sensational sign package options featuring LED lights, powder-coated steel elements, and stunning graphics.

Banking options include 3, 4, and 5-unit pod banks, as well as 3 or 4-unit in-line banks, or up to 8 units back-to-back.
