

# Unified Wallet, Powering a Cashless Gaming Experience

Create a cashless gaming environment through **Unified Wallet** by giving your players the power to instantly access funds to play slots and tables through use of a mobile app. Cashless solutions are more cost effective for casino operators and offer greater convenience for players. They are—and will continue to be—the key component in a gaming experience focused on keeping players and employees safe.

- Eliminate lines at ATMs to withdraw cash or at the kiosk/cage to redeem tickets
- Drive efficiencies by taking a mobile first approach with players and resort operations
- Reduce cost of bill validator maintenance, ticket printer maintenance, tickets and redemption kiosks
